PROFESSIONAL SUMMARY

I have worked as an independent web developer since 2008, specializing in WordPress and Joomla. I now use modern web technologies to develop leading edge applications for clients in a range of industries. I take a highly personable approach towards my clients and my work. I operate on the basis of simplicity and efficiency, minimizing the expenditure of unnecessary energy. Recent work has focused on auditing and remediating accessibility issues in CMS-based websites, improving WCAG compliance and overall user experience.
